Muhammad Idrees Kayani

Full Stack Developer

Islamabad, Pakistan | +92 347 5945299 | idreeskayani420@gmail.com | linkedin.com/in/idrees-kayani-5b4050301 | github.com/idreeskayani

PROFESSIONAL SUMMARY

Full Stack Developer specializing in React Native and React.js, with hands-on experience building production mobile and web applications with Stripe payment integration, real-time tracking (Socket.IO, WebSocket), and role-based access control (JWT). Proficient in TypeScript, Node.js, NestJS, PostgreSQL, Firebase, and Redux Toolkit, with experience in REST API integration, cross-platform (iOS/Android) development, and Agile teams. Microsoft Certified: Azure Administrator Associate.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, C/C++, HTML5, CSS3

Frontend and Mobile: React Native, React.js, Expo, Redux Toolkit, React Navigation, State Management, Responsive UI, Cross-Platform Development

Backend and APIs: Node.js, NestJS, Express.js, REST API Design and Integration, Swagger (OpenAPI), WebSocket, Socket.IO, JWT Authentication, RBAC

Databases: PostgreSQL, Prisma ORM, MongoDB, Firebase (Authentication, Firestore, Realtime Database, Storage)

Tools and Practices: Git, GitHub, Stripe Payment Integration, MapLibre, Microsoft Azure, Agile/Scrum, Unity (2D Game Development)

PROFESSIONAL EXPERIENCE

Mobile Application Developer Intern | UExel Solutions Pvt Ltd, Islamabad | Nov 2025 - May 2026

- Delivered cross-platform mobile applications with iOS and Android feature parity using React Native and TypeScript, integrating RESTful APIs and third-party libraries.
- Reduced integration errors by validating REST APIs against Swagger documentation and improving navigation, splash-screen logic, and error handling with React Navigation.
- **DTS App (Permit Verification and Document Management)** - Repo: Built secure document upload with image/PDF preview, FLAG_SECURE screen protection, and RBAC.
- **Kalash Kitchen (Restaurant POS and Order Tracking)** - Repo: Built menu browsing, real-time order tracking, and Stripe payments on a PostgreSQL-backed REST API with Redux Toolkit.

PROJECTS

RideX - Full-Stack Ride-Hailing App | React Native, NestJS, PostgreSQL, Prisma, Socket.IO, Stripe, MapLibre | Repo

- Built an Uber-style platform covering the full rider/driver ride lifecycle, live GPS tracking, in-app chat, and Stripe payments.
- Engineered real-time driver-location broadcasting and automatic ride-status transitions using Haversine proximity checks over WebSocket, with JWT refresh-token auth, RBAC, and an admin analytics dashboard.

ParkSense - Smart Parking Management App | React Native (Expo), Node.js, Express.js, Firebase | Repo

- Built real-time wrong-parking reports via QR-code scanning, anonymous in-app chat, masked calling, and live slot booking with Firebase Realtime Database and Firestore.

Jarogi - Full-Stack E-Commerce Platform | React.js, Node.js, Express.js, MongoDB (MERN)

- Implemented JWT authentication, an admin panel for product CRUD, wishlist functionality, and email order confirmations with unique order IDs.

Coin Rush - 2D Platformer Game | Unity 6, C# | Repo | Playable Windows Build

- Developed and released a 2D platformer with a full game loop (timer, lives, scoring, win/lose), main menu, persistent high score, and patrolling enemy AI with stomp mechanic.
- Built a responsive controller (coyote time, jump buffering, variable jump height) and a modular GameManager/UIManager architecture with animated UI, procedural audio, particle effects, and 2D lighting.

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate | Earned Sep 2026 - identity and access (RBAC), governance, storage, compute, virtual networking, monitoring/backup.

EDUCATION

Bachelor of Computer Science | International Islamic University, Islamabad | 2021 - 2025
